

GETABSTRACT REVIEW OF

The Psychological Safety Playbook

Lead More Powerfully by Being More Human

Stakeholders are all the people who have a defined interest in your product or service and have an impact on its success. They are not just the customers but also those who provide resources and services. A key part of product management is to identify the stakeholders and their needs and then work with them to ensure that your product will be successful.

Discussion Questions

1. How often do you interact with your stakeholders?
2. What is the best way to build stakeholder relationships?
3. What are some things you have done to get to know your stakeholders?
4. What is the biggest challenge you've faced when communicating with stakeholders?
5. How do you manage the interests of your stakeholders?
